

The Problem:

Health Inequity remains a significant obstacle for patients seeking credible disease-related information about their disease.

The Solution: GRACE

Our mission has always been focused on health equity, patient education, and patient empowerment as a means to break down barriers and create partnerships between patients, caregivers and health care providers. That mission remains extremely important as we continue to grow and innovate in our delivery of content to reach the widest audience.

We depend on your support!

17 Years of Patient Education 2007-2024

17 years of:

- Empowering patients through education
- Diversity of faculty, staff, patients and caregivers
- Inclusion by offering free, credible, reliable patient education by removing barriers
- Health equity through our dedication to reach patients and caregivers in a wide variety of formats and languages
- Global reach to over 193 countries

Your supports helps us to continue expanding our reach with more languages and a more global presence.

Support Our Only Fundraiser

GRACE doesn't hold golf tournaments or galas to support our work, rather, we depend on your support during our End of Year Appeal. We appreciate your consideration of support again this year with whatever donation amount fits your giving goals. We rely on you to continue providing the most current and emerging researches and information about any type of cancer.

Support GRACE programs to help us empower more patients worldwide!

Donate online at [cancerGRACE.org/donate](https://cancergrace.org/donate) or by sending your contribution in the attached envelope.

Empowering Patients with Your Support!

GRACE is a nonprofit organization that was created to provide a critical educational supplement to the information provided by one's own medical team. GRACE provides expert-mediated educational content to educate, empower, and enable patients, families, and caregivers to consider and discuss management options with their medical team.

Support the advancement of cancer education for patients, families, and caregivers and respond to this opportunity today.
